CERTIFICATION

IIT ROORKEE

- Advanced UI UX certification

ABOUT ME

Passionate Computer Science Engineer skilled in Web Development, UI/UX, and AI. I build scalable, user-friendly applications by blending technical precision with creative design. With interests in machine learning and intelligent systems, I aim to craft solutions that are both innovative and human-centered.

PROJECTS

CAMPUS CONNECT APP

Full Stack Development

Built a centralized campus app with features for attendance tracking, gate pass management, and student services integration.

- Developed using React and Django, ensuring secure authentication and smooth user experience.

RIDO SHARING APP

UI/UX & Frontend

Designed and prototyped a ride-sharing mobile app focused on simple booking flow and real-time trip updates.

- Applied user research, wireframing, and interactive prototyping to create an intuitive and modern interface.

POINT CLOUD CLASSIFICATION (AI PROJECT)

Deep Learning & 3D Vision

Implemented PointNet architecture to classify and segment 3D point cloud data.

- Worked on data preprocessing, model training, and evaluation, applying PyTorch/TensorFlow to handle unstructured 3D datasets.
